

Ransomware Avoidance & Recovery

RANSOMWARE
DATA

Ransomware Solutions

- We protect Your Business IT Infrastructure from the things that you forgot!

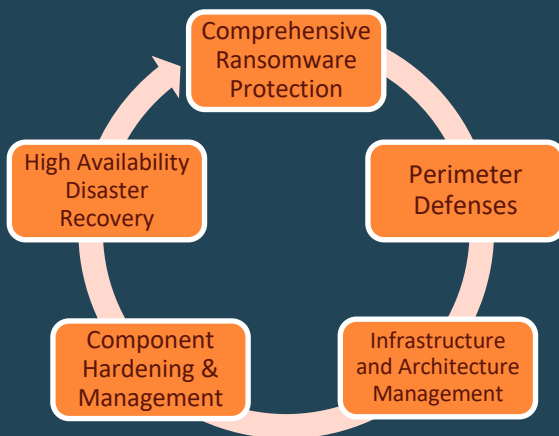

What we know that you don't...

We Take Advantage...

- Didn't Apply Security Patches...
 - We Tell you!!!
- Didn't Protect Your Data Storage...
 - We Do!!!
- Aren't Monitoring Your Security...
 - We Do!!!
- Can't have IT Unavailable
 - Back up and Running -3-5 Mins.
- Need Automated Tools...
 - We've Got You Covered
- Can't Afford to Pay Ransom...
 - You Shouldn't Have to Pay

Our Solutions look at what is being overlooked by your current Ransomware solutions and filling the gaps where our software determines a problem. And as a final step, if all else fails, we can recovery your IT environment in 3-5 minutes without paying a Ransom.

Covington & Associates, LLC Innovative and Unique Ransomware Protection and Recovery Solutions

Our Company provides a variety of risk management and response services to build stakeholder resiliency and form partnerships. As your needs change, we are constantly updating our list of available services. We encourage information sharing within the community and promote the protection of physical and digital systems.

The services we provide are driven by a comprehensive understanding of the risk environment and the corresponding needs identified by our stakeholders. C&A seeks to help organizations of all types better understand and increase resilience using all available resources, whether provided by the federal government, commercial vendors, or Small and Minority owned businesses.
